BALDWIN®

ESTATE™

COINED & KNURLED KNOBS & LEVER

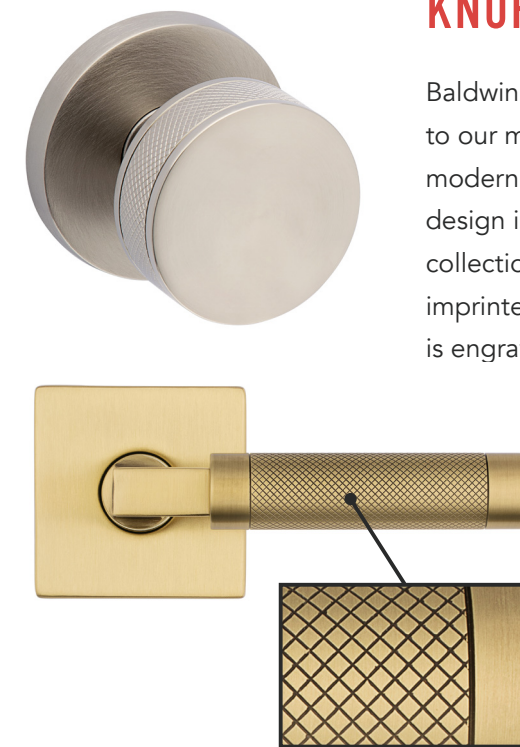

TULIP KNOB AND COINING

Enhance your home with the beautiful new Tulip knob, offered in both smooth (K012) and coined (K013) styles. The Tulip Knob was designed with an elegantly raised edge that surrounds the outer rim of the doorknob. The smooth option exudes sleek and modern in its design. The coined style adds a slight twist, a textured pattern to the outer rim of the knob that adds another striking detail with the precision machined coining detail, further enhancing the beauty of this knob.

Finished and polished by hand, both knobs feature a solid brass design. Featured rosettes are sold separately, and knobs can be paired with any of our Estate a la carte rosettes. Lock mechanism sold separately, and knobs can be customized to support passage, privacy, full dummy and half dummy functions. These are also compatible with both tubular and mortise handlesets.

KNURLED KNOB AND LEVER

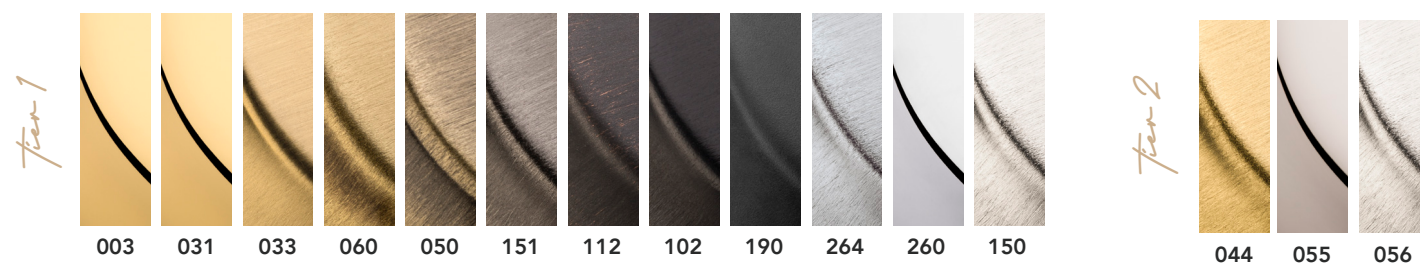

Baldwin Estate is bringing even more design detail with the addition of knurling details to our most popular contemporary knob and lever. The Knurled Collection provides modern elegance in one sleek design feature. A gorgeous, smooth, diamond knurled design is the defining feature of this collection. There are two types available in this collection: a knob (5054) and a lever (L030). The wide, outer edge of the knob is imprinted with the knurled diamond design. On the lever, the knurled diamond design is engraved and centered on the grip of the handle. Finished and polished by hand

and made from a solid brass design, the new 5054 Knob and L030 Lever designs feature a precision machined knurling texture that creates a soft and beautiful aesthetic to these best-selling styles.

Featured rosettes are sold separately, and the lever and knob can be paired with any of our Estate a la carte rosettes. Lock mechanism is sold separately, and both styles can be customized to support passage, privacy, full dummy and half dummy functions. These are also compatible with both tubular or mortise handlesets.
