FD Interiors do not feature a turnpiece

BALDWIN®

**RESERVE™**  
EMERGENCY EGRESS  
& SATIN BRASS PVD

Create a signature look with the beautiful new Satin Brass PVD finish, now available in the Baldwin Reserve Traditional and Contemporary categories. The modern finish delivers warmth and elegance while radiating light to suit all design styles.

Baldwin PVD is offered as a standard finish for Polished Brass (003), Polished Nickel (055) and Satin Brass (044). Offering the best in class experience, Baldwin Reserve makes PVD easy to order with no incremental cost, delivers at standard lead times and offers a Lifetime Finish warranty.

**BENEFITS OF PVD**

The Baldwin Lifetime PVD finish uses advanced finishing technology (Physical Vapor Deposition) to create a finish highly resistant to the effects of weather and normal wear and tear. PVD creates a durable, corrosion and tarnish resistant finish. A PVD finish is commonly used for bathroom fixtures and entry hardware, which are exposed to frequent moisture and/or salt air.

**Baldwin Nickel Alloy PVD provides a superior compound layer of corrosion protection that is backed by a lifetime finish warranty.**

**PVD is particularly valuable versus Lacquer finishes in harsh weather environments, such as areas with coastal salt air, Adverse Weather Conditions (Snow) and Sustained Ultraviolet Exposure (Desert).**

**ADDITIONAL ADVANTAGES WITH PVD**

- No oxidization
- No corrosion
- No pitting

Baldwin Reserve is proud to introduce new Egress functionality with the launch of 5 beautiful new interior trim styles to pair with 9 of our existing ¾ and Full escutcheon handlesets.

**EMERGENCY EGRESS FUNCTIONALITY**

An emergency egress lock is an entrance lock where the deadbolt and the lever latch are linked with an interconnect cartridge. The interconnect cartridge makes the deadbolt and door latches open from the inside with one single action. The single action (unlock and open) function makes for a quick and easy exit from a building in an emergency.

Sectional interiors will no longer be available to pair with these handlesets
